EDUCATION

BSc (Hons) Computing
Wrexham Glyndwr University
United Kingdom

ACHIEVEMENTS

Batch Top Graduate
Wrexham Glyndwr University

LANGUAGES

Sinhala – Native (C2)
English – Professional (C1)

PROFESSIONAL OVERVIEW

Senior Software Engineer and Technical Lead with 14+ years of experience designing, developing and leading enterprise software solutions across logistics, hospitality and ERP domains. Strong expertise in .NET, ASP.NET Core, C#, Angular, SQL Server, MongoDB, AWS and Microsoft Azure.

Experienced in solution architecture, cloud-native applications, distributed systems, RESTful APIs, enterprise application modernization and business process automation. Proven ability to provide technical leadership, solve complex production issues, conduct code reviews, mentor engineers and deliver scalable, secure and maintainable software throughout the full Software Development Life Cycle (SDLC).

Currently expanding expertise in Artificial Intelligence, Agentic AI architectures and AI-assisted software engineering.

WORK EXPERIENCE

INDEPENDENT SOFTWARE CONSULTANT (Contract/Freelance)

Air Courier Service International, Sri Lanka
Sep 2025 – Jun 2026

- Led the complete Software Development Life Cycle (SDLC), including requirements analysis, solution architecture, development, testing, deployment, and production support.
- Designed and developed enterprise-grade logistics and ERP solutions using .NET Core, ASP.NET MVC, C#, Angular, SQL Server, MongoDB, JavaScript, and RESTful APIs.
- Architected scalable backend services and REST APIs supporting business automation and operational workflows.
- Developed ERP modules for shipment management, warehouse operations, customer management, billing, reporting, and operational efficiency.

ASSOCIATE ENGINEERING TECH LEAD

Otelier (formerly MDO Global Pvt Ltd), Global Operations
Apr 2025 – Sep 2025

- Provided technical leadership and acted as a Subject Matter Expert (SME) while remaining hands-on with application design and development.
- Designed, developed and maintained enterprise applications using C#, .NET, ASP.NET Core, SQL Server and RESTful APIs.
- Led technical problem-solving, code reviews, debugging and performance optimization to improve application quality, reliability and maintainability.
- Collaborated with engineering and cross-functional teams to design and deliver scalable software solutions.
- Investigated and resolved complex production issues, contributing to system stability and continuous improvement.

TECHNICAL COMPETENCIES

Programming

C#
JavaScript
TypeScript

Backend & Frameworks

.NET
.NET Core
ASP.NET MVC
ASP.NET Core
Web API
RESTful APIs

Frontend

Angular
HTML
CSS
Bootstrap

Database

Microsoft SQL Server
Azure SQL
MongoDB

Cloud Platforms

AWS (Lambda, S3, SQS, SNS, Step
Functions, CloudWatch)
Azure (Azure SQL, Azure App
Services)

Architecture & Methodology

Distributed Systems
Microservices
Cloud-Native Applications
Serverless Architecture
Event-Driven Architecture,
Agile (Scrum)

Tools & DevOps

Git
Bitbucket
CI/CD pipelines

SENIOR SOFTWARE ENGINEER

Otelier (formerly MDO Global Pvt Ltd), Global Operations
Sep 2022 – Mar 2025

- Designed, developed and maintained enterprise software solutions using C#, .NET Core, ASP.NET Core, SQL Server and Angular.
- Served as a Subject Matter Expert (SME) and primary technical contact, supporting technical decisions, solution design and complex problem-solving.
- Developed RESTful APIs and backend services supporting distributed enterprise applications and business workflows.
- Investigated and resolved critical production issues while performing application and database performance optimization.
- Conducted code reviews and implemented software enhancements following best development practices.
- Collaborated with cross-functional teams throughout the Software Development Life Cycle (SDLC).

SOFTWARE ENGINEER

Otelier (formerly MDO Global Pvt Ltd), Global Operations
Feb 2021 – Aug 2022

- Designed, developed and maintained enterprise software solutions using C#, ASP.NET Core, Angular and SQL Server.
- Updated legacy applications to modern .NET technologies and coding standards.
- Developed RESTful APIs and backend services supporting business requirements.
- Collaborated with QA and engineering teams to deliver scalable and high-performance applications.
- Maintained and improved existing codebases while participating in peer code reviews.

SOFTWARE ENGINEER

DPJ Holdings, Sri Lanka
Jan 2019 – Jan 2021

- Designed, developed and maintained enterprise software applications using Microsoft .NET technologies.
- Developed scalable backend components, RESTful APIs and database solutions based on business requirements.
- Collaborated with development and QA teams throughout the Software Development Life Cycle.
- Reviewed software architecture and implemented performance improvements.

SOFTWARE ENGINEERING MANAGER

Antron Express, Sri Lanka

Dec 2017 – Dec 2018

- Led the software engineering team while actively participating in software design, coding and system architecture.
- Designed and developed enterprise software solutions using Microsoft .NET technologies.
- Mentored software engineers through code reviews and technical guidance.
- Collaborated with customers and stakeholders to translate business requirements into technical solutions.

SOFTWARE ENGINEER

Antron Express, Sri Lanka

Aug 2012 – Nov 2017

- Developed web applications, backend services and database solutions using Microsoft .NET technologies.
- Collaborated with management, internal teams, and development partners regarding software application design status and project progress.
- Designed and developed robust solutions to meet functional, scalability, and performance requirements.
- Evaluated and improved software architectures in coordination with fellow engineering staff.
